Certified Backflow Testers

Listed below are backflow testers who have the required certification on file with the City of Winter Garden. This list is provided for informational purposes only. These testers are not employed by the City, and the City assumes no responsibility for, and does not recommend, any particular tester.

You may use a tester not listed provided they are certified by the University of Florida TREEO Center, the American Water Works Association (AWWA), or the Florida Water & Pollution Control Operators Association (FW&PCOA) and copies of their testing certification and equipment calibration are submitted with the test results.
