

Overview of Poster Contest

The City of Winter Garden cordially invites students to participate in our “Drop Savers” Poster Contest. Students in grades K – 12 are encouraged to create a poster depicting a water conservation idea in slogan form, drawing form or both. The contest teaches elementary-aged students and reminds middle and high school students about the importance of water conservation. We feel the best opportunity to conserve water is through a long-range education and awareness program, beginning with our young people. This contest is open to Public, Private and Home School Students.
