

YOU CAN MAKE A DIFFERENCE

FREE SAFETY DEVICE

STAY SAFE WITH HOME OXYGEN THERAPY

Reduce Fire Risks with a Fire Break Device

Oxygen therapy saves lives - but it can increase fire risk. The Fire Break Device adds an extra layer of protection to keep you and your loved ones safe.

How it Works:

- Works like an in-line fuse
- Stops fire instantly before it spreads
- Protects oxygen equipment and your home
- Provides peace of mind for patients, caregivers, and families

Program Eligibility:

This program is available to City of Winter Garden Residents who:

- Are on home oxygen therapy
- Live in single-family home
